experience

2015–Now	**Doğuş Teknoloji**	Çayırova, Kocaeli
	Software Specialist	
2013–2015	**Doğuş Teknoloji**	Çayırova, Kocaeli
	Software Engineer	

projects

Corporate Projects

2016–Now **VDF Filo ERP Application** *Doğuş Teknoloji*

Involved in planning, designing, development and deployment of an Volkswagen Doğuş Finans branded ERP project called Vdf Filo ERP. It is an award winning project in Volkswagen's International IT awards commpetition. We used scrum with 3-week sprints as the agile development methodology. We have managed periodical code reviews to ensure code quality.

Responsibilities:
- Object oriented programming and design
- Data structures design, related with database logic design
- Application integration, creating web services
- Content and application security framework design and implementation
- Maintain project and fixing bugs due to customer feedback
- Managing server configurations and deployment of projects when needed
- Handling communication between client-to-server and server-to-server
- Scope, define, design and develop solution; end-to-end technical solutions
- Participate in knowledge transfer, documentation and information sharing
- Developing and implementing policies and procedures for Web based system development
- Writing technical design document
- Refactoring codes with focused on extendability & reuseability
- Writing unit tests for guaranteed functionality & quality software

Technologies: C#, TFS, ASP.Net/MVC, TypeScript, AngularJS, MSSQL, WCF, Redis, Entity Framework, HTML5, TFS Build Automation & Release Management

2013–2016 **LeasePlan ERP Application** *Doğuş Teknoloji*

LeasePlan Turkey's ERP Application

Responsibilities:
- Maintain project and fixing bugs due to customer feedback
- Scope, define, design and develop solution; end-to-end technical solutions
- Refactoring codes with focused on extendability & reuseability

Technologies: C#, TFS, ASP.Net, MSSQL

Personal Projects

2017-2018	**Stock Prediction**	Python, TensorFlow, Machine Learning, Elasticsearch

Stock Market Prediction using Machine Learning Algorithms

2017	**Google Forms to SQL**	Google Forms, Google Scripts

SQL query generator using Google Forms
/Google Forms to SQL

2017	**CugiC**	Unity

NOT NOT game replica

2017	**Hotel OCR**	OpenCV, Python

Identity Identifier based on OpenCV

2017	**Hız Koridoru**	ionic, Firebase

Highway Speed Corridor search and toll booth duration of transition assistant
/Hız Koridoru
/Hız Koridoru

2016–2017	**CBDownloader**	C#

Live Stream Video Downloader
/CBDownloader

2011	**Tarifini Bul**	Android

Recipe Finder Mobile Application
/Tarifini Bul

education

2006–2011	**Telecommunication Engineering**	Bachelor of Science

Istanbul Technical University

meetups & activities

2018	**git & Unit Testing**

Doğuş Technology

2017	**Microsoft New Technologies Hackathon**

Microsoft Turkey

2017	**Web Applications with XF RESTful Web Service Consumption, Docker + .NET Core + Nginx**

Microsoft Turkey

2017	**Tech Meetup: AI & IoT Day**

Microsoft Turkey

2017	**GDG DevFest**

Kadir Has University

2017	**Real Blockchain Scenarios**

Microsoft Turkey

2016	**Secure Coding**

Biznet Bilişim
